VOL. LVII: NO 17. REDWOOD CITY, CAL, SATURDAY, JULY 29, 1916. ESTABLISHED, 1859

SUPERVISORS APPOINT ELECTION OFFICERS

The Board of Supervisors met in adjourned session Monday, July 24, at 10 a. m., there being present Jos. M. Francis, presiding, Jas. T. Casey, Wm. H. Brown, John MacBain and C. V. Thompson.

District Attorney Swart presented deeds from Joe Brazil and Vittorio Mattei for a right-of-way over their property at San Gregorio for the Pescadero to San Gregorio road, also a release from Mattei, whereby he waives all claim for damage or compensation for and account of the construction of the above road. The deeds and release were accepted, on motion of Thompson, seconded by Casey, and the same ordered filed.

The map of Redwood Heights, the new subdivision on Brittan avenue, west of Redwood City, which had been presented by Surveyor Neuman at a previous meeting and then referred to the Board of Trustees of the above town for their recommendations, was accepted, on motion of MacBain, seconded by Brown.

E. T. McGettigan addressed the board and highly commended the supervisors, in behalf of the Redwood City Chamber of Commerce, for their activity in connection with the building of the scenic road into the Big Basin and also the proposed highway on the east side of the Southern Pacific railroad tract to connect with the Bay Shore road. MsGettigan assured the supervisors that they could figure on the co-operation of the Chamber of Commerce in the two projects.

The following claims were allowed and ordered paid, on motion of MacBain, seconded by Brown:

M. T. Boland, $77.76, for registration work; A. Selni, $65.85, for supplies.

State aid was allowed in the case of two orphan children, on motion of Casey, seconded by Thompson.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

THERE'S NO FUN IN POLITICS UNLESS YOU WIN

The State campaign is on sure enough and the mooves on the political chessboard already grow interesting.

Note, for instance, the Johnson, Booth, Bordwell contests as to the Senatorship and the call for a Republican conference at San Francisco today to get matters straightened out.

Here is a question in which the whole people are concerned but upon which they can only be silent spectators. 'Tis well that such is the case, however. That is, it is well for their peace of mind.

To name a senator is one thing. But to carry such a nominee along to success is quite another. It is a job for experts at the game. That is why political organizations are absolutely necessary and why they must outrank the individual.

But within the organization itself is carried on a royal battle. Let no man be deceived as to the struggles and heartbreaks among the big players as well as among the small.

One man wins, another looses. It's all in the game. But the rule is that the cheerful looser commands respect and stands a chance to win in other ways. Simply, he has done his best, takes defeat gracefully and waits for another turn.

The old question here arises—Where doctors disagree who is to decide?

Well, in this Senatorship matter the fine hand of generalship may be illustrated in the rulings of the chairman of the Republican State Central Committee. We shall see.

And the chairman of the Republican State Central Committee is the bright and genial Francis V. Keesling, who has the legal ability to properly weigh every point raised, pro or con, on behalf of the several senatorial candidates.

There you are. Francis V. Keesling is "it," and we do not envy him his job. He is going to umpire the game. Please do not raise the old cry to swat the umpire. There's lots of good stuff in the chairman.

The Republican State Central Committee itself is a great deal more than a name. There are lots of wise old campaigners among that lot who have the makings of skilled diplomats. And it's not every would-be magnate who can get a look-in at the council chamber or even pass the outer door.

The small politicians are not to be overlooked, however. Their work is equally important in a way, but is done at home.

They are the vote-getters, the "good mixers," the ones who must meet the people face to face.

And way down at the bottom it's the home element—the great rank and file of single ballots—that forms the court of final appeal, the appeal to the people.

Oh yes, it's a great game. Probably more interesting this year than ever before. Greater world issues. Heavier stakes.

Who wins?

SENATORIAL SITUATION

So much confusion has been caused in connection with the Republican candidacy for the United States Senatorship in California as to the position of the National Republican Committee on the contest; that National Committeeman, W. H. Crocker wired to the chairman of the National Committee for a statement of the Committee's attitude on the subject.

As a result of the exchange of telegrams National Committeeman Crocker read the following statement at the banquet tendered to Nicolaus Murray Butler at the Palace Hotel, Saturday evening.

"It is important that the people of California should understand the facts in regard to the contest for the United States Senatorship. In order that the Republican party may be in a position to execute its policies and to give full support to the administration of Mr. Hughes, should he be elected President, it is necessary to elect a Republican Senate and a Republican House of Representatives.

"It is necessary that there shall be in both Senate and House a real Republican majority, made up of men who have not only supported Mr. Hughes in the election of 1916, but who are convinced believers in Republican principles. The great task is to secure a Republican majority in the Senate. This cannot be done unless the newly elected Senator from California is a genuine Republican.

"In accordance with precedent, the Republicans of the state conceded that at this time their candidate for Senator should be taken from Southern California. Willis H. Booth, whose candidacy was announced six months ago and who has been well received in that part of the state, is opposed by Judge Walter Bordwell, also from Southern California, who announced himself a candidate on July 13.

"It is now announced that Governor Johnson, who states he will vote for Mr. Hughes in this election, is not a Republican, but the vigorous enemy of the Republican party and its interests, is to compete for the Republican Senatorial nomination, as the law unfortunately permits him to do.

"It has been asserted that, with a view to securing the support of former Progressives for Mr. Hughes, the Republican party leaders in the East favored Governor Johnson for the Republican Senatorial nomination in California.

"I have made careful inquiry and am in a position to say positively that there is no ground whatever for statements to this effect. I know that it is the intention of the Republican party leaders to take no part in this purely California question. All they ask is that the Republican party shall do everything in its power to elect a Republican to the United States Senate, and to secure the electorial vote of California for Mr. Hughes."

is our aim in serving meat—to retain the fine flavor Nature bestows, not to let it go to waste, as some meatshops do. With prolonging this true tale, it may be set down for a fact that here is to be found a first-class place to purchase beef, mutton, lamb, ham, poultry and game, to give your table good credit with household and guest.

RAILROAD WAGES

Shall they be determined by *Industrial Warfare* or *Federal Inquiry?*

To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.

You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Western railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest and average of all) as shown by the pay rolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	$1747 3094	$2195	$1537 3076	$2071	$1056 2445	$1378
Conductors	1543 2789	1878	1454 2933	1935	1151 2045	1355
Firemen	1053 2078	1317	751 2059	1181	418 1552	973
Brakemen	854 1719	967	874 1961	1135	862 1821	1107

The average yearly wage payments to *all* Western train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	$2038	$1737	$1218
Conductors	1772	1624	1292
Firemen	1218	973	832
Brakemen	921	1000	1026

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide strike or an investigation under the Government determine this issue?

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain-sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette *unless* you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real reason* for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a comeback! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just *answers the universal demand for tobacco without bite, parch or 'come-back!*

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheerfullest investment you ever made!

Prince Albert is sold everywhere in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that clever crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such splendid condition.

FREIGHT SERVICE DAILY BY WATER

New Departure Announced by Peninsula Dock and Warehouse Co.

Commencing August 1st the Peninsula Dock and Warehouse Company will inaugurate a daily round-trip freight service between San Francisco and Redwood City.

All freight delivered up to 4:30 p. m. each day at its new landing, Pier 22, Folsom street wharf (right in the heart of the shipping district) San Francisco, will be delivered to patrons in Redwood City early each morning, thus providing an efficient service.

To accomplish this the steamer Belvedere will leave San Francisco each evening on the tide, discharge at Redwood City and return on the same tide, remaining in the city each day to load.

It is urged by the Dock Company that Redwood City shippers should patronize the line liberally, as it is Redwood City's location on the bay that also gives it cheaper freight rates by rail than possessed by other towns on the peninsula.

WHAT STEAMER SERVICE MEANS TO REDWOOD

Superintendent Charles Dobbel touched lightly upon the whole system of municipal docks, illustrating his remarks by reference to the official hydrographic survey chart of the Bay of San Francisco.

Redwood's enviable position thereon is not fancied, but real. The deep water tidal channel of the bay closely hugs the Redwood City shore line, while Redwood Creek, forming an arm of this tidal channel, is for its greater length of sufficient depth at all times for navigation.

All that is required to make Redwood City a fine shipping front is to deepen the channel near the town and keep it clear, as is required everywhere, even at the San Francisco slips and docks directly on the bay itself.

Government appropriations for doing such work are based upon the amount of tonnage handled. Thus there is a close connection between freight and appropriations, and between water communication and the freight rate on all commodities whether shipped by rail or by water. Ability to ship by water governs the freight rate a city has to pay. Thus its facilities for transportation by water are Redwood City's greatest asset.

The channel is now in daily use "on the tides." But if it was cleared out right up to the town and kept so it could be used at all times, irrespective of the tides, and a fine shipping front would be created. Boats would line the creek, docks would be built up, and with the Dumbarton route open, through rail service and immense highway traffic, as at present, nothing better could be asked.

The John Horstman Company Purchase 3 Acres of Land Along State Highway

The deeds were recorded Tuesday by the San Mateo County Abstract Company. R. F. Chilcott of Redwood City negotiated the deal, which has been pending for the past four months.

The present location of the Horstman Chemical Works is a desirable one but too small to accommodate the increased business of the company, so that additional ground space became necessary.

This is a step in advance for Redwood, but there will be others. Business is coming this way.

Following were pall bearers Milton and George Azevedo, John and Charley Lewis, Robert Knapp and Manuel Cunha. Deceased was a fine young man and his early death is much to be deplored.

The funeral was Sunday and interment was made in the old Catholic cemetery. The members of the St. Isabella Society turned out in a body.

MOSS BEACH

Last Saturday, July 15th, was the 72d birthday of J. F. Wienke, the founder of our prettily-situated little sister town, Moss Beach, and a large delegation of friends from Redwood City and San Francisco, including a coterie of acquaintances from adjoining towns on the coastside, called on him at his residence in Moss Beach to extend congratulations and give him the right hand of good fellowship, with the hearty wish that he would live to see many more birthdays. The time was pleasantly spent in narrating reminiscences of early days, in which Mr. Wienke has a wonderful repertoire—especially as regards the history of the coastside. It's a common expression hereabouts when in doubt, to hear someone say: "Ask Wienke."
